

LITECAST

BEAM & EPS FLOORING SOLUTIONS

Litecast's GT (for use with 150mm beams) and XT (used with 150mm or 225mm beams) flooring systems create thermally efficient structural ground floors and are a cost-effective alternative to conventional beam and block.

**Quick installation
with no blocks or
sheet insulation
required**

**Large EPS panels
are the equivalent
size of 7 concrete
infill blocks and
weigh 500g**

**Poly panels cut
with a handsaw –
No specialist
skills required**

**Flexible approach
to hitting U-values**

**Zero waste –
Polystyrene
offcuts collected
free of charge and
recycled**
